ARNAV SUMAN

2nd year student @MIT, Bangalore

arnav-suman arnavsuman Email: arnavsuman2022@gmail.com Mobile: +91 9354226481

GOALS

Passionate about leveraging AI/ML to drive positive societal impact. My research interests span across but not limited to diverse domains of AI/ML, including Deep Learning, Computer Vision, Generative Modeling and NLP.

Skills

- Python
- C/C++
- Java
- Tensorflow/Keras
- Data Structures & Algorithums
- Computer Vision
- MySQL/Oracle Database
- MERN Stack
- Logical Reasoning

EXPERIENCE

Ongoing Interdisciplinary Research(s) Sep 2023 – Present

AI Researcher working on Object Detection *Bangalore, India*

- Creating a framework to ensure secure transmission and enhancing the security of an Additive Manufacturing network. Working on Integrating 3D Point Clouds with 2D CNNs for Enhanced Object Detection

IBM Mentorship and Intel AI Global Impact Festival Finalist Sep 2021 – June 2022

Team Leader *Delhi, India*

- Made an end user Computer Vision Project under the mentorship of IBM mentor to monitor pollution through drones using Deep Learning library.

Raspberry pi Foundation's Competition Coolest Projects.org June 2021

India Winner and Judge's Favorite under Advanced Programming Category *Delhi, India*

- Made chatbots for prevention of cyberbullying, Stuttering. India Winner

EDUCATION

Manipal Institute of Technology, Bengaluru Campus Bangalore, India

B.tech Information Technology - CGPA-8.86 *Sep 2022 - May 2026*

Vishwa Bharati Public School, NCR Delhi, India

CBSE 12th Grade ; Percentage- 85.0% *April 2014 - July 2022*

CBSE 10th Grade ; Percentage- 93.2%

PROJECTS

- **Advanced Drone Pollution Monitoring System** – Detect real-time Pollution through Drones using Machine Learning and Computer Vision. (code on GitHub)
- **Climate Change Home Tracker** – Web Based App that informs user of their carbon emissions and footprint predicting carbon emissions in next 50 years and visualize change in global earth Temperature. Written in Python using Streamlit library to host on web. Link
- **Open-Source Machine Learning for All –** Designed and developed a comprehensive, user-friendly master program that simplifies machine learning model training for non-technical users eliminating the need for manual installation of dependencies and libraries.(under development)
- **Ads Recommendation Database**

  Made an Oracle database storing user data like age, gender, preferences and using a mathematical model suggest relevant ads. Made frontend in JavaFX for user to interact and get an ad suggestion. (under development)

Online Courses

- Object-Oriented Hierarchies in Java Object-Oriented Hierarchies in Java (Coursera-LearnQuest)
- Introduction to Object-Oriented Programming with Java (Coursera-LearnQuest)
- Digital Systems: From Logic Gates to Processors (Coursera- Universitat Autònoma de Barcelona)
